# ALL-IN-ONE LED Display
(GOB Technology)

True Intelligence behind the simplicity

Experience our elegance and high performance All-in-One Large LED Display.

Featuring cutting-edge GOB (Glue on Board) technology for enhanced durability, moisture resistance, and anti-static protection. With a slim 19.8mm thickness and a sleek 6mm frame, it offers both aesthetic appeal and practicality.

Ideal for conference rooms, TV studios, and educational settings, the All-in-One series delivers crystal-clear images with true color accuracy, smart brightness adjustment, and easy installation, making it the perfect choice for professional environments.

Frameless Design Ultra Thin Structure

Energy Saving & Environmental Safeguarding

GOB Tech Reliable Full Protection

Quick Assembly & Maintenance

Specification ALL-IN-ONE LED Display

| Specification size	120 "	150 "	180 "
Overall size	2678x1645.5x19.8	3344x2020x19.8	4010x2394.5x19.8
Weight (Wall-mounting)	90kg	130kg	180kg
Maximum Power	1200W	1600W	2300W
Average Power	510W	720W	950W
Resolution	1920x1080	1920x1080	1920x1080
Pixel Density	519,438 pixels/m²	332,440 pixels/m²	230,861 pixels/m²
Contrast Ratio	3000:1	3000:1	3000:1
Pixel Configuration	1R 1G 1B		
Signal Input	HDMI		
Material & Color	GOB, Black		
Brightness	100-550nits		
Viewing Angle	Horizontal:160°±10 ; Vertical:160°±10		
Color Processing Depth	24 bit		
Refresh Rate	3840 Hz		
Input Voltage	AC100V to AC240V, 50 or 60 Hz		
IP Grade	IP30		
Maintenance	Front Access		
Lifespan	100,000 hours		
Operating Environment	Temperature:-10℃-40℃/Humidity:10%-80%RH		

Multiple Interfaces

Intelligent Environment Adjustment

**High Reliability & Durability**

Android OS

Multiple Sizes

Some Application Scenarios

Conference Room, TV Studio,School and Training Agency, Digital Media.
