

ELECTRIC BARONET

FREE-HANGING, WALL- OR CEILING-MOUNTED

■ Economical hardwired alternative, the popular and affordable Baronet HW electric projection screen features easy installation. The slender pentagonal-shaped steel case with matching endcaps is scratch-resistant and fits into most spaces. Endcaps form universal mounting brackets making installation of the Baronet HW electric projection screen easy, whether mounted on a wall, suspended from, or recessed above the ceiling. Motor is housed in an insulated environment to provide smooth, quiet operation.

This free-hanging, fiberglass-backed projection screen maintains flatness thanks to the weight of the screen and bottom dowel.

FEATURES

- Image area framed in black on all four sides, 12" (30 cm) extra drop standard.
- Steel pentagonal case with scratch-resistant white polyester finish and matching endcaps.
- Includes a 110V, 3-position switch (standard).
