

PORTABLE FOLDING STAGESCREEN®

MODULAR FRAME DESIGNED FOR VERSATILITY

Location: North American Auto Show 2015
Dealer and installer: TVS Communication Solutions

■ The StageScreen® features interchangeable frame pieces. All available sizes utilize combinations of the same frame sections; these interchangeable parts make it easy to reuse frame pieces to create different size viewing formats. The viewing surface attaches to the perimeter frame easily with Draper's unique DuraLoop™ bungee cords. With sizing flexibility, StageScreen® enables a greater return on initial investment for the AV rental markets, while offering an optimal solution for streamlining inventory.

Portable folding screens are engineered for easy assembly and to withstand the rigors of long term use. Screens remain taut and flat when attached.

Includes heavy-duty, molded polyethylene wheeled carrying case.

DRESS KIT AVAILABLE
CARRYING CASE AVAILABLE
STAGESCREEN LEGS AVAILABLE

FEATURES

- Fixed-tensioned projection screen designed to be wall-mounted or flown. Mounting fasteners not included.
- Color-coded frame and instructions ensure fast and easy assembly with no hinges, snaps, or cranks required.
- Frame sections are connected with permanently attached threaded links and guide pins.
- Viewing surface attaches easily to perimeter frame with DuraLoop™ bungee cord loops. DuraLoop™ lasts longer than traditional snaps and provide self-centering tension for better image quality.
- The image area of each screen is exact and true to format.
- Utilizes an 8" (20 cm) truss that is significantly stronger than traditional truss folding screens. During in-house

testing, StageScreen® trusses tested 60% stronger than folding truss screens.

- Includes wheeled heavy-duty polyethylene carrying case.
- **WARRANTY:** One year against defects in materials and workmanship.
- **US PATENTS:** [legal/patents/](#)

OPTIONS

- Frame available in silver anodized or black finish.
- Legs, anti-sway stabilizer bars and stiffener bars for larger configurations.
- **Viewing Surfaces:** TecVision®, OptiFlex™ (tensioned) and CineFlex™ (rear projection) families.
